

Bug-Proof Lesson Plan

YOUR NAME:	Becca Crist
Pick a lesson from your unit in Dr. Grace's class. Write a short summary of that lesson plan. Be sure to describe what technology you plan for your students (and you) to use:	The third lesson focuses on the Roman government, comparing it to modern democracy and analyzing the power dynamics within Roman society. The students will create Prezis and ibooks, using in class time to research and put their projects together.
<i>GNAT</i>	
Look at the class list of possible problems and pick one (or make up your own) that is something that is a temporary problem/issue that could happen to your equipment (the teacher's computer) that would affect your plan. The technology might get fixed before your lesson is over, but might not. What "bug" did you pick:	The teacher's computer is having technical difficulties during instruction.
What could you do that would allow the learning to continue without the technology or in a modified way?	The computer could be restarted to see if that solves the issue, or another laptop could be used.
What do you need to do ahead of time so that plan could be carried out? (Do you need handouts? Other materials? ...)	N/A
<i>BLACK FLY</i>	
Look at the class list of possible problems and pick one (or make up your own) that is something that is an all-day problem/issue that could happen to you or your students' equipment that would affect your plan. What "bug" did you pick:	A student left their computer at home on presentation day.
What could you do that would allow the learning to continue without the technology or in a modified way?	The student can use another computer to share their project with their group, so that their presentation can still take place.
What do you need to do ahead of time so that plan could be carried out? (Do	The students will be expected to upload their projects to the class website prior to presentation day.

you need handouts? Other materials? ...)	
<i>DEADLY ASIAN HORNET</i>	
Look at the class list of possible problems and pick one (or make up your own) that is something that is a multi-day problem/issue that could happen to you and your students' equipment that would affect your plan. What "bug" did you pick:	Technical system failure with the wifi that leaves the school without internet for several days.
What could you do that would allow the learning to continue without the technology or in a modified way?	<ul style="list-style-type: none"> . Presentations could take place as a discussion instead of presenting a prezzi . Research can be done in the library instead of using online resources.
What do you need to do ahead of time so that plan could be carried out? (Do you need handouts? Other materials? ...)	<ul style="list-style-type: none"> . The students would have to have had the notes for their prezzi saved offline for them to be able to present without their project. . I would need to pick out several books that could be used to begin the students' research, and have them on reserve in the library.
